How to make companies enter in the SE / SE+ certification process?

- Not easy ("Big" & / SMEs)
- A long process (communication again and again – even to clients of our members)
- But it worths it!
- Ask companies some questions ...

Do you follow regulatory rules? ⁽¹⁾

■ How often have you realized fire exercices?

1. Every 6 months
2. Every years
3. Occasionally
4. Never

■ How do you manage old tyres, batteries, oil filters?

1. By an approved official way which take in charge the recovery of waste and provide me with a documentation of traceability of waste
2. They are placed in waste
3. As every other waste

■ When you're working on a client site, how do you take in account risks?

1. Prevention plan
2. A visit
3. No action

Do you follow regulatory rules? ⁽²⁾

- For any of these questions, if you have not answered "1", you do not respect important regulatory points
- It can earn you penalties in case of control by authorities but you can be criminally involved in case of accident
- Do not wait ... enter in the SE / SE+ certification
